## SINGAPORE

### Environmental Protection and Management Regulations

#### Statement of Compliance

On May 31, 2022, Singapore published two amendments under its Environmental Protection and Management Act 1999 (EPMA) to regulate five hazardous chemicals and products containing such chemicals. These two amendments are:

- *S 435/2022 'Environmental Protection and Management (Hazardous Substances) (Amendment) Regulations 2022 (the Regulations) – amends the Schedule to the Environmental Protection and Management (Hazardous Substances) Regulations (Rg 4)*
- *S 436/2022 'Environmental Protection and Management Act 1999 (Amendment of Second Schedule) Order 2022' (the Order) – amends Part 1 of the Second Schedule to the Environmental Protection and Management Act 1999.*

Based on our best knowledge, our products are in compliance with these Regulations.

Marposs will continue to review and evaluate Singapore Regulations requirements for new products and processes as business moves forward.
