Marposs and TITANS of CNC Announce New Partnership at IMTS 2026

CHICAGO, Ill., September 2026 – Marposs and TITANS of CNC are excited to announce a new partnership, marked by the signing of their agreement at IMTS 2026 in Chicago.

The collaboration brings together Marposs' expertise in precision measurement, monitoring, and process control with TITANS of CNC's strong presence in manufacturing education and digital media. A key focus of the partnership will be highlighting the technologies behind Lights-Out Manufacturing and showing how measurement, real-time feedback, and machine protection can work together to enable more autonomous production.

The new partnership was celebrated at IMTS by Paolo Mattioli, Marposs CCO; Luca Matteucci, President of Marposs Corporation; and TITAN Gilroy, CEO of TITANS of CNC, who came together at the show to mark the beginning of the collaboration.

"Lights-Out Manufacturing is about giving machines the intelligence to run autonomously," said Luca Matteucci, President of Marposs Corporation. "Measurement is the sight, CNC feedback is the judgment, and collision monitoring is the reflex. Together, they allow the process to measure, correct, and protect itself in real time. We're excited to partner with TITANS of CNC and show manufacturers what's possible when these technologies work together."

TITANS of CNC is a leading manufacturing education and media organization known for its CNC machining content, training, and commitment to inspiring the next generation of manufacturers. Its global community includes machinists, students, educators, and industry professionals.

Marposs has more than 70 years of experience developing precision measurement, inspection, monitoring, and process control technologies. Its solutions help manufacturers improve quality and productivity, protect machines and tools, and support increasingly automated production.

The signing at IMTS marks the beginning of an exciting collaboration between Marposs and TITANS of CNC. Together, the organizations will help manufacturers explore how today's

technologies can enable smarter, more autonomous production and move the industry closer to true Lights-Out Manufacturing.

With the partnership now officially underway, Marposs and TITANS of CNC look forward to working together to educate, inspire, and advance the future of manufacturing.

ABOUT MARPOSS

MARPOSS was founded in 1952 and Mr. Francesco Possati is the President of the Group; it provides shop-floor solutions for measurement, inspection and testing in the production environment. Marposs' solutions include gauging equipment of mechanical components, before, during and after the production process; monitoring solutions on machine tools; assembly and testing for many industry sectors; and automatic machines and inspection stations for production lines. MARPOSS is one of the main suppliers to the automotive industry providing solutions for both traditional and electric mobility but additionally operates in the aerospace, biomedical, hi-tech, white appliance, and glass containers industries. MARPOSS Group employs 3200 people around the world and is present in 34 countries with more than 80 sales offices.

ABOUT TITANS OF CNC

TITANS of CNC is a manufacturing education and media organization focused on CNC machining, advanced manufacturing, and workforce development. Through educational content, training, and industry partnerships, TITANS of CNC works to educate and inspire manufacturers around the world.
